Summary

At Boost Mobile, my tenure has been marked by a fervent commitment to cybersecurity and the education necessary to protect digital assets. With a solid foundation in computer repair and web development, my contributions extend beyond mere management to ensuring robust digital defenses.

The intrigue of ethical hacking has fueled my professional journey. At Boost Mobile, we have emphasized the critical importance of cybersecurity measures to fend off potential national cyber threats. Through collaboration with my team, we advocate for heightened security protocols to safeguard our interconnected digital infrastructures.

Crystal Meth Anonymous is a group of recovering addicts that helps those in need get sponsorship and community support.

- Crystal Meth Anonymous is a group of recovering addicts that helps those in need get sponsorship and community support. I started this in Hastings as a chapter of UnSpun Lincoln in December of 2025 to help those in recovery, active addiction or survivors of addicts find hope and resources in the same way I was helped and mentored.

UnSung Ministries

Web Developer

Aug 2024 - Present

Hastings, Nebraska, United States

At UnSung Ministries I am working on web development to help grow other faith based ministries.

- At UnSung Ministries I am working on web development to help grow other faith based ministries. Currently I am building and maintaining a website for Dr. Kent Hovind of Creation Science Evangelism and Dinosaur Adventure Land. Dr. Hovind has been a great influence in my life as he takes Biblical perspectives and contrasts them with secular science. Dr. Hovind does debates with secular scientists and the pastor of Genesis Baptist Church in Alabama.

UnSung Ministries LLC

Chief Executive Officer

Aug 2024 - Present

Hastings, Nebraska, United States

I started UnSung Ministries as an outreach to help those find Christ.

- I started UnSung Ministries as an outreach to help those find Christ. In 2010 I was plagued with addiction however I did not give up. I reached out to God in prayer and asked that he save me from this and He answered (but not in the way I had ever imagined). I was sentenced to 3 months in county jail and found hope and restoration in a program called ND Teen Challenge.

- After praying and applying the judge found favor on me and decided to bless me with the opportunity to go through this intense 12 month program. After completion I decided to continue in this ministry and move forward getting my bachelors degree in Intercultural Studies (missions) and Christian Leadership.
- I was not sure what would come of this ministry when it began a month ago however God has brought people into my life from Africa, North Dakota, and Omaha, NE and allowed me to be a vessel in their lives proving the authenticity of God's Word and the promise He has made.
- In one short month I have been blessed with the opportunity to begin a Podcast on Spotify (I died, but I am better now). This began after reaching out to a friend on Facebook who struggles with alcoholism. She had told me that she literally died in the ambulance to the hospital and was brought back to life by paramedics. In the time she was clinically dead she recalls seeing heaven and her late father telling her that God is not done with her yet. She was revived and now is able to speak of it. Since this interaction I have seen a ripple effect of people who have listened to my podcast and God has touched their lives. One woman in Africa had a healing session with my church Christ Community Church in Omaha and generational curses of famine and personal issues of depression, anxiety and idolatry have been broken and she has been set free!
- God is not done with us yet and I publicly declare that I am dedicating the rest of my life to do what Jesus said in the Great Commission. Matthew 28:19 (look it up!)
